Life Basement and Ground Level *** Location: 15 Minutes by

Car from the Center of Malaga *** This is a great investment opportunity considering the possibilities

of the building, in which it is possible to build a total of nine multi-family homes, underground parking

(with nine spaces and four storage rooms) and a 156 m2 commercial area. It would be possible to

build two additional levels: attic and basement. The use is residential and there is already a

construction project with a feasibility study, so it could begin to be marketed within a period of six

months from its purchase. Its location is ideal, since it is in one of the most central avenues of

Alhaurín de la Torre, a quiet and safe municipality just ten minutes by car from the center

of Malaga and the beach. For more information contact us.
