Built in 2011, the property offers approximately 520 m² of built area on a 1,260 m² plot. The villa has recently been fully refreshed, with newly painted interiors and new furniture throughout. The architecture combines contemporary design with subtle American-inspired elements, creating impressive proportions, generous living spaces and an elegant yet comfortable atmosphere. The main level welcomes you through a spectacular double-height entrance and features a spacious living room, bar area, separate fully equipped kitchen with premium Miele appliances and island with food waste disposal, and a room with a guest bathroom. A private elevator connects all levels of the property. The basement level includes a private cinema room, laundry room, two storage areas, an additional bedroom and an independent apartment with its own private entrance from outside, making it ideal for guests or staff. This level also provides direct access to the double garage. The upper floor comprises three bedrooms, all with en-suite bathrooms. One of the bedrooms is currently configured as a private office. All three rooms enjoy direct access to an impressive approximately 80 m² terrace. The outdoor areas have been designed for entertaining and year-round enjoyment, featuring a swimming pool surrounded by mature landscaped gardens, an outdoor bar, barbecue area, jacuzzi, outdoor fireplace, shower and bathroom. The villa is equipped with a complete KNX home automation system controlling lighting, curtains, climate and ventilation throughout the property. Additional specifications include solid marble flooring and bathroom finishes, underfloor heating and cooling throughout, premium Miele appliances and a private elevator connecting every level. A refined modern residence combining privacy, technology, generous outdoor spaces and high-quality finishes in one of the Costa del Sol's most established gated communities.
