Beautiful townhouse in the calm and beautiful area Añoreta Golf. This house belongs to a small community of 24 neighbors that share a nice pool. The house is divided into 3 levels and on the entrance level we find a nice, renovated kitchen, toilet and a big living room. From here we can also reach the outdoor terrace and garden where you can enjoy a barbeque with friends and family. On this side of the house we will have the morning and midday sun. On the second floor of the house, we find 3 good size bedrooms and 2 bathrooms, perfect for the morning traffic of a family with kids. On this floor we also have 2 terraces and a smaller balcony. Lots of natural light and nice modern materials. We also have a 60 square meter basement that could either work as a fourth bedroom, a home cinema room or a gym with weight machines. In total this home is really big and is a perfect match for a family that requires lots of space.
